Physics Lib Vols 1 to 6.

THE JOURNAL
of the Acoustical Society of America

INDEX TO VOLUME I

1929 1930

INDEX TO VOLUME I

JOURNAL OF THE ACOUSTICAL SOCIETY OF AMERICA

Constitution and By-Laws. No. 1, p. 9–12.
Members of the Society. No. 1, p. 13–23.

Andree, C. A. and R. F. Norris. An instrumental method of reverberation measurement. No. 3, p. 366–372. Abstract in No. 1, p. 32.

Beasley, Willis C. The influence of phase on tone quality. (Abstract). No. 2, p. 170.
———. **The monaural phase effect with pure binary harmonies I.** Frequency ratio 2:3. No. 3, p. 385–402.
Bedell, E. H. and E. C. Wente. A chronographic method of measuring reverberation time. No. 3, p. 442–427. Abstract in No. 2, p. 168.

Chrisler, V. L. Measurement of sound transmission. No. 2, p. 175–180.
———. **The measurement of sound-absorption by oscillograph records.** No. 3, p. 418–421, Abstract in No. 2, p. 168.
Coye, Kenneth and Donald A. Laird. Psychological measurements of annoyance as related to pitch and loudness. No. 1, p. 158–163. Abstract in No. 1, p. 38.

Delasso, L. P. A new acoustic analyzer-determination of the sound spectra produced by aircraft in flight. (Abstract.) No. 2, p. 171.
Dewey, Godfrey. Frequency of occurrence of speech sounds in written English. (Abstract.) No. 1, p. 34.
Dunn, H. K., S. D. White and L. J. Sivian. Absolute amplitudes and spectra of certain musical instruments. (Abstract.) No. 2, p. 172.

Eyring, Carl F. Reverberation time in "dead" rooms. No. 2, p. 217–241. Abstract in Mo. 2, p. 168.

Fletcher, Harvey and J. C. Steinberg. Articulation testing methods. Supplement to No. 2, p. 1–97.
Fletcher, Harvey. A space-time pattern theory of hearing. No. 3, p. 311–343.
French, Norman R. and Walter Koenig, Jr. The frequency of occurrence of speech sounds in spoken English. No. 1, p. 110–120. Abstract in No. 1, p. 34–35.

Galt, Rogers H. Methods and apparatus for measuring the noise audiograms. No. 1, p. 147–157. Abstract in No. 1, p. 37–38.
Germond, Hallet H. An error in the derivation of the reverberation formula. (Abstract.) No. 2, p. 173.

Hales, Wayne B. Acoustics of the Salt Lake Tabernacle. No. 2, P. 280–292. Abstract in No. 1, p. 31.
Hickman, C. N. Spark chronograph developed for measuring intensity of percussion instrument tones. No. 1, p. 138–146. Abstract in No. 1, p. 35–36.

Jones, Arthur Taber. The strike note of bells. No. 3, p. 373–381. Abstract in No. 2, p. 169.
———. **The effect of temperature on the pitch of a bell.** No. 3, p. 382–384.

Knudsen, Vern O. The measurement of sound absorption in a room by the intensity method and by the oscillograph method. (Abstract.) No. 1, p. 27–28.
———. **The hearing of speech in auditoriums.** No. 1, p. 56–82. Abstract in No. 1, p. 30.

Koenig, Walter, Jr. and Norman R. French. The frequency of occurrence of speech sounds in spoken English. No. 1, p. 110–120. Abstract in No. 1, p. 34–35.

Kranz, F. W. Discussion. Symposium on hearing. No. 3, p. 353–356.

Laird, Donald A. and Kenneth Coye. Psychological measurements of annoyance as related to pitch and loudness. No. 1, p. 158–163. Abstract in No. 1, p. 38.

———. The effects of noise. No. 2, p. 256–262. Abstract in No. 2, p. 169.

Lamson, Horatio W. The use of sound in navigation. No. 3, p. 403–409. Abstract in No. 2, p. 170–171.

Lomb, Henry C. Music as a humanizing agent. (Abstract.) No. 2, p. 172.

MacNair, Walter A. Optimum reverberation time for auditoriums. No. 2, p. 242–248. Abstract in No. 2, p. 173–174.

Mason, Warren P. The approximate networks of acoustic filters. No. 2, p. 263–272. Abstract in No. 2, p. 172–173.

Norris, R. F. and C. A. Andree. An instrumental method of reverberation measurement. No. 3, p. 366–372. Abstract in No. 1, p. 32.

Olson, Harry F. and Irving Wolff. Sound concentrator for microphones. No. 3, p. 410–417. Abstract in No. 2, p. 173.

Pohlman, Augustus G. Discussion. Symposium on hearing. No. 3, p. 348–352.

Redfield, John. A new just scale. No. 2, p. 249–255.

Riesz, R. R. Description and demonstration of an artificial larynx. No. 2, p. 273–279. Abstract in No. 1, p. 28–29.

Riesz, R. R. and R. L. Wegel. Measurement of the constants of a single reed wind vibration. (Abstract.) No. 2, p. 171.

Ross, Ira G. An instrumental measurement of reverberation. (Abstract.) No. 1, p. 31–32.

Russell, G. Oscar. The mechanism of speech. No. 1, p. 83–109. Abstract in No. 1, p. 32–33.

Sabine, Paul E. The measurement of sound absorption coefficients by the reverberation method. (Abstract.) No. 1, p. 27.

———. Transmission of sound by walls. No. 2, p. 181–201.

Shambaugh, G. E. The theory of sound perception. No. 3, p. 295–300.

Sivian, L. J., H. K. Dunn and S. D. White. Absolute amplitudes and spectra of certain musical instruments. (Abstract.) No. 2, p. 271.

Sivian, L. J. Speech power and its measurement. Supplement to No. 2, p. 1–16. Abstract in No. 1, p. 33–34.

Steinberg, John C. Effects of distortion upon the recognition of speech sounds. No. 1, p. 121–137. Abstract in No. 1, p. 35.

Steinberg, John C. and Harvey Fletcher. Articulation testing methods. Supplement to No. 2, p. 1–97.

Stewart, G. W. Binaural hearing. No. 3, p. 344–347.

Stoddard, Charles Fuller. Scientific measurements of piano playing as used in making Ampico records. (Abstracts.) No. 1, p. 36.

Troland, Leonard T. Psychophysiological considerations relating to the theory of hearing. No. 3, p. 301–310.

Waterfall, Wallace. Variation of sound absorption test data. (Abstract.) No. 1, p. 29–30.

———. An audiometric method for measuring sound insulation. No. 2, p. 209–216. Abstract in No. 2, p. 169.

———. History of the Acoustical Society of America. No. 1, p. 5–8.

Watson, F. R. Graphical representation of the reverberation equation. No. 1, p. 47–55. Abstract in No. 1, p. 29.

———. **Coefficient of transmission of sound.** No. 2, p. 202–208.

Wegel, R. L. Theory of vibration of the larynx. Supplement to No. 3, p. 1–21. Abstract in No. 1, p. 33.

Wegel, R. L. and R. R. Riesz. Measurement of the constants of a single reed wind vibrator. (Abstract.) No. 2, p. 171.

Wente, E. C. The tube method of measuring sound absorption coefficients. No. 1, p. 28 (Abstract.)

Wente, E. C. and E. H. Bedell. A chronographic method of measuring reverberation time. No. 3, p. 422–427. Abstract in No. 2, p. 168.

White, S. D., L. J. Sivian and H. K. Dunn. Absolute amplitudes and spectra of certain musical instruments. (Abstract.) No. 2, p. 172.

White, William Braid. The human element in paino tone production. No. 3, p. 357–365. Abstract in No. 1, p. 37.

Wolff, Irving and Harry F. Olson. Sound concentrator for microphones. No. 3, p. 410–417. Abstract in No. 2, p. 173.
